## REPORT OF OFFICE OF TRAINING ACTIVITIES

19 - 30 April 1965

### A. ITEMS OF INTEREST TO THE DD/S

#### 1. Foreign Language Training

During the past few weeks LTS has started classes and received requests for instruction in three of the Scandinavian languages. Beginners classes have been started for 5 students in Swedish and 2 students in Norwegian and a request has also been received for instruction in Icelandic. This is a considerable upsurge of activity in languages where we have had a dearth of requirements during the past 5 years.

We have just recruited another Greek tutor, [REDACTED] who will help [REDACTED] with their heavy load in Greek classes and tutorials. This will also permit [REDACTED] to devote most of his time to teaching Turkish where we have had another increase in requirements.

25X1A

25X1A

The use of the language labs continues high with Headquarters logging 827 hours and [REDACTED] 1818 hours for the four-week period ending 16 April 1965.

#### 2. Intelligence Review

Most of our time during the past two weeks has been devoted to preparations for I. R. #10, which begins on 26 April. There are 38 students in the course, representing 7 components of the DDI, 3 DDP divisions, 2 DDS&T offices and 5 DDS offices. The average grade level is a "high" GS-13; thirteen of the students are GS-14 and above. The majority have had more than 10 years Agency experience.

#### 3. Program for DIA Management Analysts

At the request of [REDACTED] we presented on 21 April a one-day briefing program for two members of the DIA Management Staff who are making a survey of the DIS training programs. They were particularly interested in learning about our orientation training program and about the intelligence courses presented to various levels of employees. In addition to our faculty, members of the I. P. Faculty, Audio Aids, and Visual Aids Sections participated in the briefings.

4. Covert Training Instructors

25X1A [REDACTED] had eight instructors and the School of International Communism had one instructor on TDY overseas during this period.

25X1C [REDACTED]

25X1A 6. [REDACTED]

25X1A On 19 April, [REDACTED], Office of Research and Development/DDS&T, visited the Station to discuss the possibility of using areas of our real estate for a testing program involving certain animals. His visit derived from an exchange of correspondence between DTR and the Office of Research and Development. Because of the sensitivity, Station participants were limited to the COS, C/PCS and the Security Officer. The DCOS was briefed on the results.

25X1A OR&D's requirements are divided into three distinct and separate activities. [REDACTED] Personnel feel the first two can be accommodated on Station with no interference with their normal operations.

25X1A [REDACTED] assured them he can keep the schedules flexible to fit regular programs.

25X1A It was agreed that the third requirement could not be conducted at [REDACTED]. They did discuss the possibility of using [REDACTED] but this was by no means resolved and could not be truly judged without a trip to that installation for a detailed investigation. The next step is for OR&D to provide a written proposal, based on our discussions, for DTR's approval.

25X1A

Major General William R. Peers, Assistant Deputy Chief of Staff for Military Operations for Special Operations, Department of Army, and one of his assistants, Colonel L. H. Schweiter, Director of

Special Warfare Directorate, ODCSOPS, Department of Army, addressed the combined Operations and Paramilitary classes on 23 April. Colonel Schweiter spoke on "Department of Army Concept and Role in Counter-insurgency Operations and Relationship with Agency," and was followed by General Peers who gave his views on the current military situation and operations in South Vietnam, based primarily on recent visits he had made to the area. Both presentations were well received but General Peers made a particular hit with the student body. The best indication of this was the fact that the DCOS had to interrupt and end the questioning. This is quite a salute when you consider that it was Friday afternoon and the students are interested in taking off for Washington.

8. Registrar

Mr. J. Kenneth Mulligan, Chief of the Office of Career Development, Civil Service Commission, extended an invitation for members of the Registrar Staff to meet with certain members of his office on matters of mutual interest. He also extended an invitation for a visit to Kings Point by the DTR, the Registrar, and Deputy Registrar. Mr. Mulligan had previously informed the Registrar that the decision had been made to open their second school at San Francisco's Treasure Island and by so doing, they would double their potential for this training. Undoubtedly they will ask us to send some of our students to Treasure Island. This may open up possible nominations of [redacted] people, par-

9. A Special Bulletin on the Orientation for Overseas

The chief instructors are staffing out the policy for attendance. Meanwhile, the enrollment for the orientation on 4 and 5 May is 52, twice as many as room capacity. [redacted] said that rather than give the orientation in two sections of about 25 each, he will give it to the large group as a single presentation, and in the main auditorium, which we have reserved for him.

25X1A

10. Senior Management Seminar

As they were received in Registrar's office, names of participants for the 16-21 May Senior Management Seminar were turned over to the
